

Your supply chain specialist

Production, Warehousing , Transport & Customs

Introduction

Storage, production, transportation, and customs handling. Built on these four pillars, Jonker & Schut offers a complete package when it comes to Food and Feed products.

With 40 years of experience in the industry, we are more than capable to guide your product through the supply chain. Both in our extensive and neat warehousing solutions, the subsequent transport service and any repackaging and blend solutions.

We provide creative possibilities by using personal attention, experience, flexibility, and innovation. Due to our experience, we are able to provide solutions for leading companies world wide in the Food- and Feed industry - every day!

Warehousing solutions

Are you in need of storage space for Food and/or Feed products? We store your goods safely, hygienically, and if required, in a conditioned environment. By using the latest technologies, we can guarantee the safety of your products and provide you with access to your inventory data 24/7.

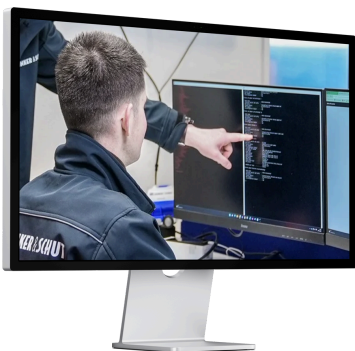

Different environments

- Compartments
- (shuttle-) Racking

(Re)palletizing

- Loose loaded containers
- Pallets + sealing
- Labeling

Technology

- 24/7 acces to your inventory
- We build EDI integrations
- Track & Trace

Conditioned

- Ambient
- 4-16 degrees
- Environmental Monitoring
- Extensive pest control

Transport solutions

We have an extensive fleet of vehicles that are equipped for the transport of general cargo, container transport, and bulk transport. Our drivers navigate all over Europe, and for total peace of mind, you have come to the right place. By means of track & trace, we can inform you at any time about the location of your goods.

Palletized

- Box trailers
- Tautliners
- Conditioned

Container

- 20 / 40 ft

Bulk

- Food & Feed Bulk
- widely experienced at delivering leading companies in the food industry

Specific needs

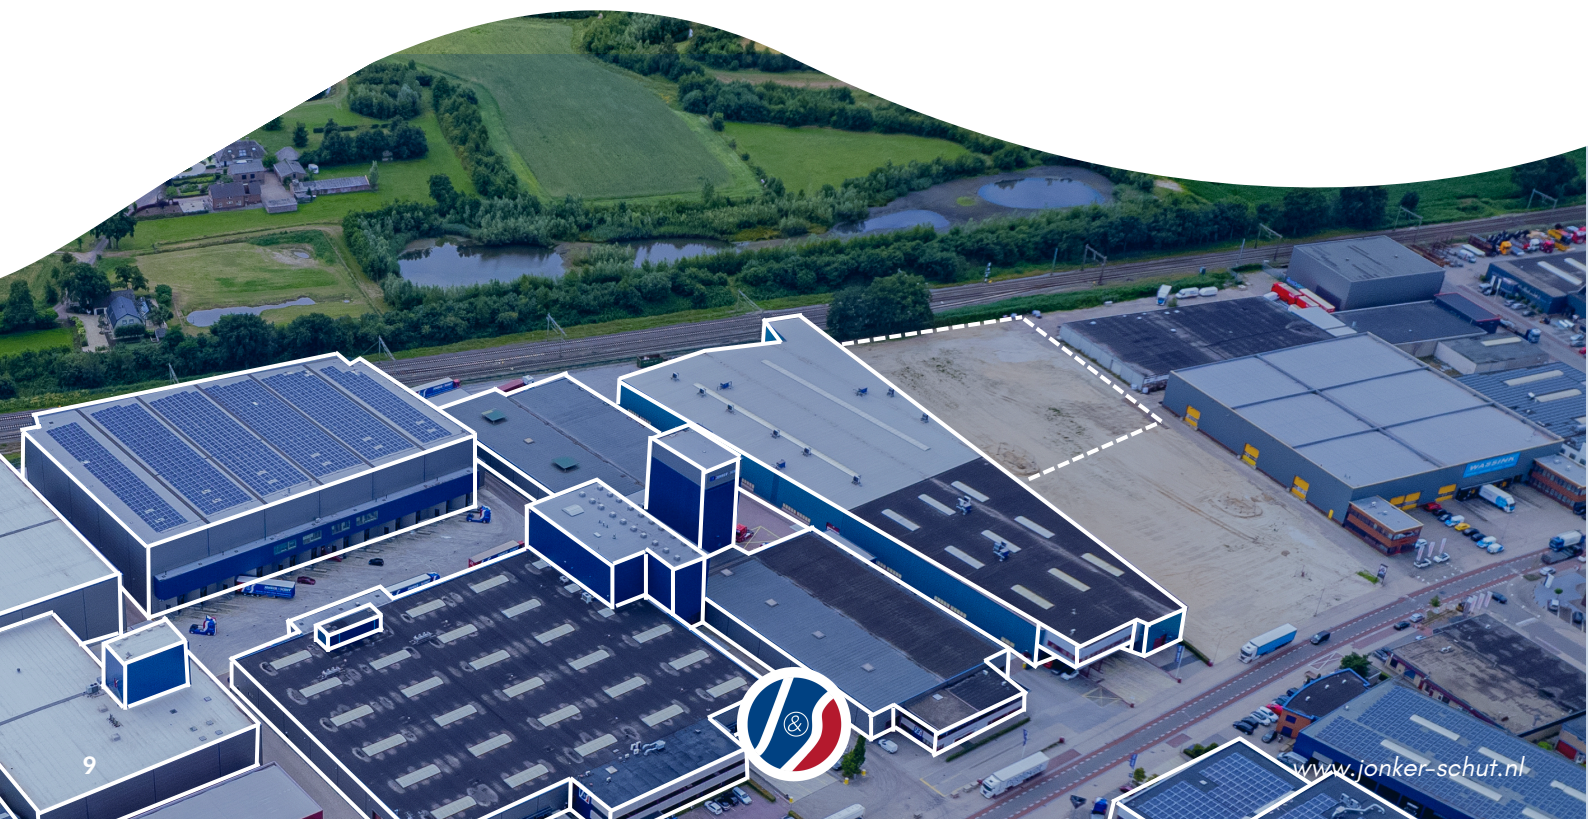

- ADR transport
- Tailgate
- Forklift

Quality

The quality of our services is of great importance. Your standards, as our customer, are leading. You determine to what extent additional quality requirements are needed. It goes without saying that we are open to discussion and will think along with you.
